

Technical **Data** Sheet

THE PREFERRED INSECTICIDE SOLUTION

Description

A water based insecticidal fluid supplied in concentrate form, dilutable with water, for the treatment and prevention of insect attack. The active ingredient is Permethrin.

User Friendly

Micro 8 Woodworm Concentrate has an extremely low hazard rating as detailed:

8 hour re-entry period following treatment

Truly water based ie. contains NO Aromatic / Hydrocarbon / Glycol Ester solvents

Not classified (ie non irritant) when diluted (Control of Pesticides Regulations 1986)
Virtually odourless and non flammable both in concentrate and when diluted.

Rapid penetration of active ingredients and fast drying time.

Specifying

Micro 8 Woodworm Concentrate is approved under the Control of Pesticides Regulations 1986 for use as directed.

All Bats are protected under the Wildlife and Countryside Act 1981. Before treating any structure used by Bats, consult English Nature, Scottish Natural Heritage or The Countryside Council for Wales.

Method

Dilution: 1 part concentrate with 24 parts clean water.

Application of the ready to use product should be by conventional remedial type spray equipment at low pressure (approx 40/50 psi). Do not atomise spray.

Preparatory Works

Check the structural integrity of the timbers to be treated and remove any severely infested timber. Ensure that any new timber is treated with a suitable preservative. Ensure that cut ends of timber are also fully treated. In areas affected by fungal decay take all necessary actions to eliminate the source of dampness and to promote drying out. In roofs thoroughly clean all timbers with a stiff brush. Remove any insulation materials to allow full access before application of fluid

To allow adequate access to all floor timbers and joist ends lift floor boards at intervals of 1 metre. Clean all timbers with a stiff brush. Paint or similar surface finishes should be removed from all timber. Remove all floor coverings, furniture and fittings which either hinder good working practice or may be damaged. Isolate electrical circuits in treatment areas. Cover water tanks thoroughly with polythene sheeting. Display warning notices at strategic points prior to treatment and leave on site after treatment. Ensure written safety details are given to persons due to occupy treated areas.

Product Data

Coverage	1 litre diluted product per 4 sq mts of wood surface.
Packaging	1 litre plastic containers.
Drying time	under normal conditions surface dry in 2 to 4 hours.
Flash point	non-flammable in both concentrate and diluted form.
Storage	away from food and direct sunlight.

Statutory Conditions Relating To Use

The (COSHH) Control of Substances Hazardous to Health Regulations 1988 may apply to the use of this product at work.

FOR USE ONLY BY PROFESSIONAL OPERATORS.

Engineering Control of operator exposure must be used where reasonably practicable in addition to the following items of personal protective equipment.

WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS) SYNTHETIC RUBBER/PVC GLOVES when using plus EYE PROTECTION when using. AVOID EXCESSIVE CONTAMINATION OF COVERALLS AND LAUNDRER REGULARLY. Take off immediately all contaminated clothing.

DO NOT BREATHE SPRAY MIST. Otherwise wear respiratory protective equipment and eye protection. (see HSE Guidance booklet HS (G) 53 'Respiratory Protective Equipment - a practical guidance for users')

However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

EXTREMELY DANGEROUS TO FISH AND OTHER AQUATIC LIFE. Do not contaminate watercourses or ground. THIS MATERIAL AND ITS CONTAINER must be disposed of in a safe way.

DO NOT APPLY TO SURFACES on which food is prepared.

UNPROTECTED PERSONS AND ANIMALS SHOULD BE KEPT AWAY FROM TREATED AREAS FOR AT LEAST 8 HOURS AND UNTIL SURFACES ARE DRY. ENSURE ADEQUATE VENTILATION BEFORE REOCCUPATION.

WHEN USING DO NOT EAT, DRINK OR SMOKE. REMOVE OR COVER ALL FOODSTUFFS before use.

Remove or cover fish tanks and bowls before application. COVER WATER STORAGE TANKS before application. DO NOT USE ON BEEHIVES OR BEEKEEPING EQUIPMENT. ALL BATS ARE PROTECTED UNDER THE WILDLIFE AND COUNTRYSIDE ACT 1981. BEFORE TREATING ANY STRUCTURE USED BY BATS, CONSULT ENGLISH NATURE, SCOTTISH NATURAL HERITAGE OR THE COUNTRYSIDE COUNCIL FOR WALES.

READ ALL PRECAUTIONS BEFORE USE: HSE No. 6132.

Safety and Hygiene

WASH HANDS AND EXPOSED SKIN before meals and after use. WASH SPLASHES from skin or eyes immediately.

KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place.

KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS. KEEP OUT OF REACH OF CHILDREN.

This product is cleared under the U.K. Government Control of Pesticides Regulations 1986 for use as directed HSE No: 6132.
